

saunum

Climate device for a wood burning
or electric heater

saunum base

Saunum Base solves the primary problems of today's classic wood-burning or electric-heater steam saunas, such as temperature stratification, quick and overly hot steam, and breathing discomfort. Saunum Base, a unique sauna climate device that complements the heater, fits into every sauna, ensuring a more even temperature plus milder and more airy steam. Himalayan salt balls combined with the unique functions of the device turn every sauna into a relaxing spa experience.

Climate device for a wood burning
or electric heater

saunum base

Saunum Base sauna climate devices come in a versatile selection of colours and installation methods. Install the climate device on top of the board, recessed in the board or inside the wall. Controlling the climate device is very easy with the touch switch.

Sauna Base offers a unique steam experience and a 5-in-1 relaxing home spa. With a Saunum device, steam is milder and mixed with cooler air, which allows you to breathe more easily. As more water is thrown on the stones, the sauna air becomes more humid, and sweating becomes more intense. No fatigue or headache after sauna! Enjoy a soft steam sauna, a sauna enriched with salt ions, a wet humid sauna, a mild relaxation sauna or an aroma sauna.

Suits to the
whole family

saunum base, saunum base short

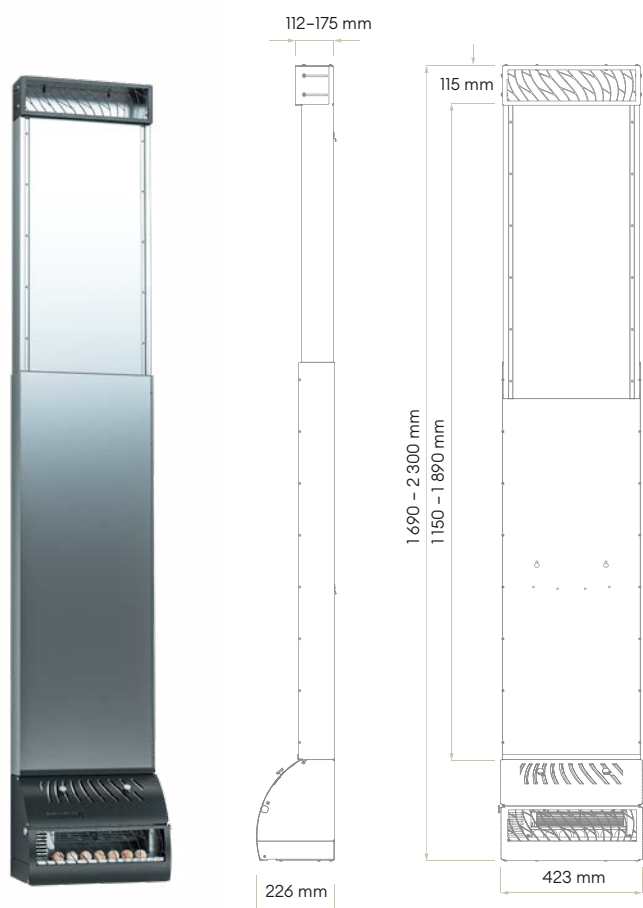

A sauna climate device that can be installed on the surface of wall boards or recessed

Includes:	Climate device with rotary switch, Himalayan salt balls (7 pcs)
Sauna climate device	3 speeds, adjustable air valve
Colours of the case	Anthracite grey
Colours of the glass	Black, patterned
LED colours	Only patterned glass – blue, red, white
Power, voltage	60 W (75 W together with LED lighting), 230 V – 50/60 Hz
Safety distance	According to the heater's manual. There must be no blockage in front of the climate device, and the sauna users' feet must not be closer than 50 cm
Height	Saunum Base 1752 mm / Saunum Base Short 1495 mm
Height with protective grid*	Saunum Base 2157 mm / Saunum Base Short 1900 mm
Depth x Width	226 x 437 mm
Weight	30 kg

* The protective grid must be used if the device is recessed into the board.

Needs in addition:

Overcurrent protection	B1
Power cable, 1 phase	H07RN-F cable or equivalent, min 3 x 0.5 mm ² . For an external switch, min 5 x 1 mm ² between the switch and the device (for speed level 3)
For recessed installing	Protective grid
For an aroma sauna	Saunum Sauna Oil Set
For external switching	Saunum Base touch switch (black or white)

saunum base touch switch

In addition to the rotary switch (included), there is an option to add a touch-sensitive switch. The touch switch can be installed at a suitable height outside the steam room.

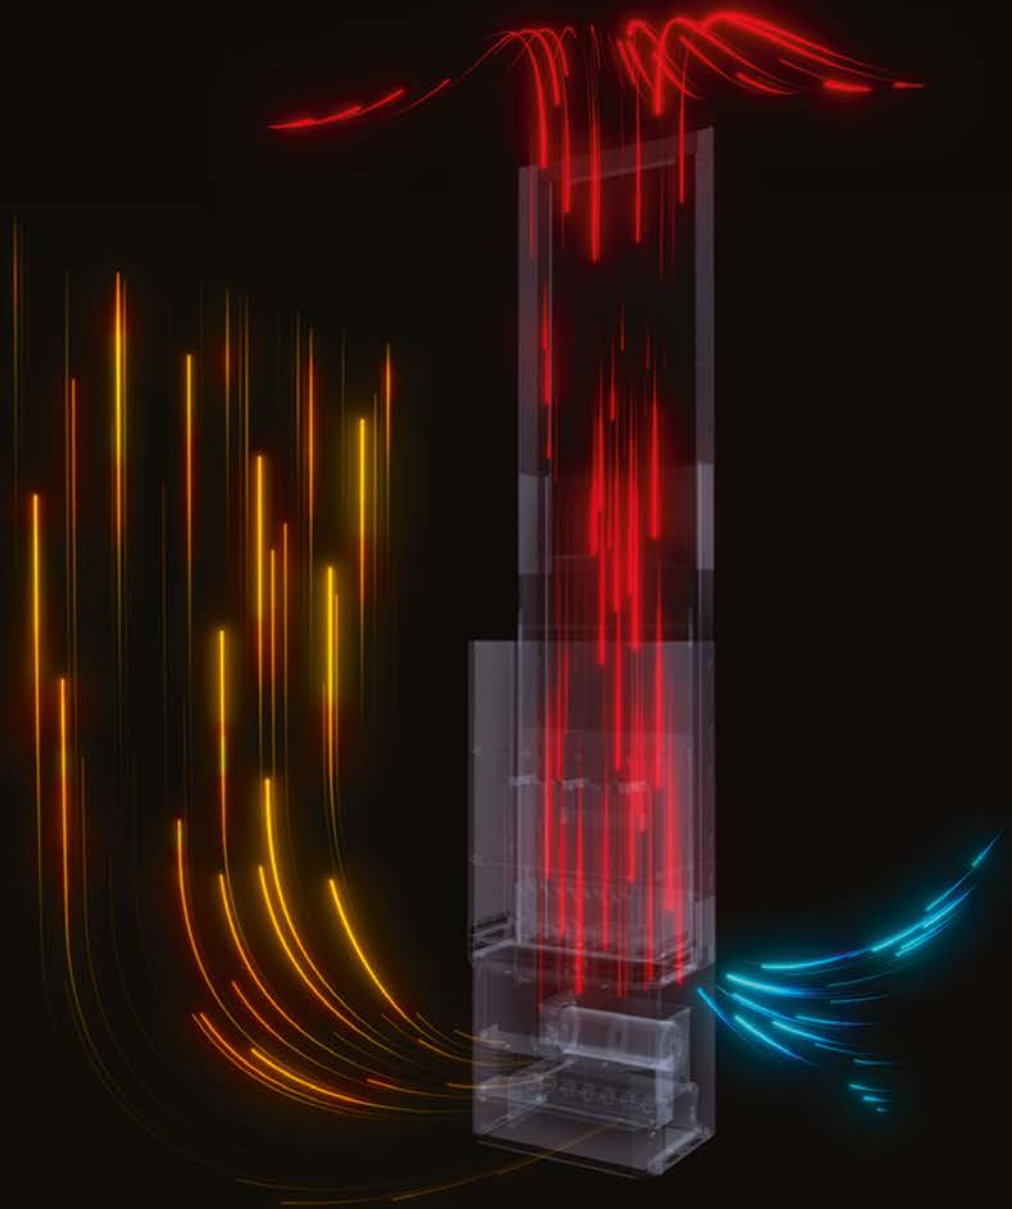

saunum base s

In-wall sauna climate device

Includes:	Climate device, Himalayan salt balls (7 pcs), touch switch (white or black), protective grid
Sauna climate device	3 speeds, adjustable air valve
Colour of the case	Visible parts – anthracite grey
Power, voltage	60 W, 230 V – 50/60 Hz
Safety distance	According to the heater's manual. There must be no blockage in front of the climate device and users' feet must not be closer than 50 cm
Height	Adjustable 1690–2300 mm
Depth x Width	226 x 423 mm
Weight	30 kg

Needs in addition:

Overcurrent protection	B1
Power cable, 1 phase	To the switch 3 x 1 mm ² . Between switch and device H07RN-F or equivalent 5 x 1 mm ² (for 3 speed levels)
For an aroma sauna	Saunum Sauna Oil Set

Innovative

patented air mixing system

Saunum's patented air mixing system captures scorching steam that has risen under the ceiling of the steam room, mixes it with the cooler air coming from the floor, and directs the soft blended steam evenly back into the steam room. This ensures a more even temperature and a more airy steam that allows you to breathe more easily. Water can be thrown on stones more often, and therefore the sauna air is more humid and the sweating is more intense.

Sensational experience

relaxing sauna and home spa

Try different settings and steam intensities
and enjoy a unique sauna experience.

Classical Nordic steam sauna

Temperature 60–100 °C

Climate device speed level 1, valve open 25 %

Wet steamy sauna

Temperature 45–60 °C

Climate device speed level 2 or 3, valve open 100 %

The lower the temperature and the higher the speed of the climate device, the more steam is generated

Mild relaxing sauna

Temperature 40–55 °C

Climate device speed level 1

If you prefer a humid steamy sauna, keep the valve of the climate device at least 25 % open

Sauna enriched with salt ions

Temperature 40–100 °C

Climate device speed level 1, valve open 25 %

Put the salt balls (included) onto the tray inside the climate device. The climate device circulates healthy salt ions into the air, which mixes with the steam to the benefit of your skin and respiratory tract.

Relaxing aroma sauna

Temperature 40–90 °C

Climate device speed level 1, valve open 25 %

Replace one of the salt balls with an aroma bowl with a few drops of aroma oil and enjoy an aromatherapy experience.
