

saunum

A home spa sauna heater/climate device

saunum experience

Saunum Experience is a unique sauna heater/climate device designed for an advanced sauna experience in apartments and private houses. The large stone volume and the patented air mixing system ensure exceptional steam that is soft and evenly distributed throughout the steam room. When Himalayan salt balls are added to the device, they enrich the air with salt ions, which have a soothing effect on the respiratory system and skin. Saunum Experience lets you choose at least five sauna solutions that turn your sauna into a relaxing spa.

A home spa sauna heater/climate device

saunum experience

With its compact dimensions and classical, timeless design, Saunum Experience fits every sauna. Choose either a minimalist closed stone basket or an open stone basket in a Nordic black or elegant anthracite grey. With the new generation sauna control device, Saunum Leil, it is easy and convenient to control the heater. Three pre-set steam types allow you to heat the sauna with just a few touches of a screen. With the help of the Saunum Leil mobile app, you can control your sauna from wherever you are.

Saunum Experience offers an innovative steam experience suitable for the whole family. A softer steam mixed with oxygen-rich air makes breathing easier. The 5-in-1 home spa solution allows you to transform a classic steam sauna into a sauna enriched with salt ions, a mild relaxation sauna, a humid steam sauna, and an aroma sauna.

Relaxing
home spa

Traditional
steam

Mild
long steam

Easy
to breathe

Suits to the
whole family

Includes:

Heater, climate device, salt balls 7 pcs

Stone basket options:

Open, closed

Colour:

Black, anthracite grey

Sauna climate device

3 speed levels, vent adjustment

Height

Adjustable 1800–2400 mm

Depth x Width

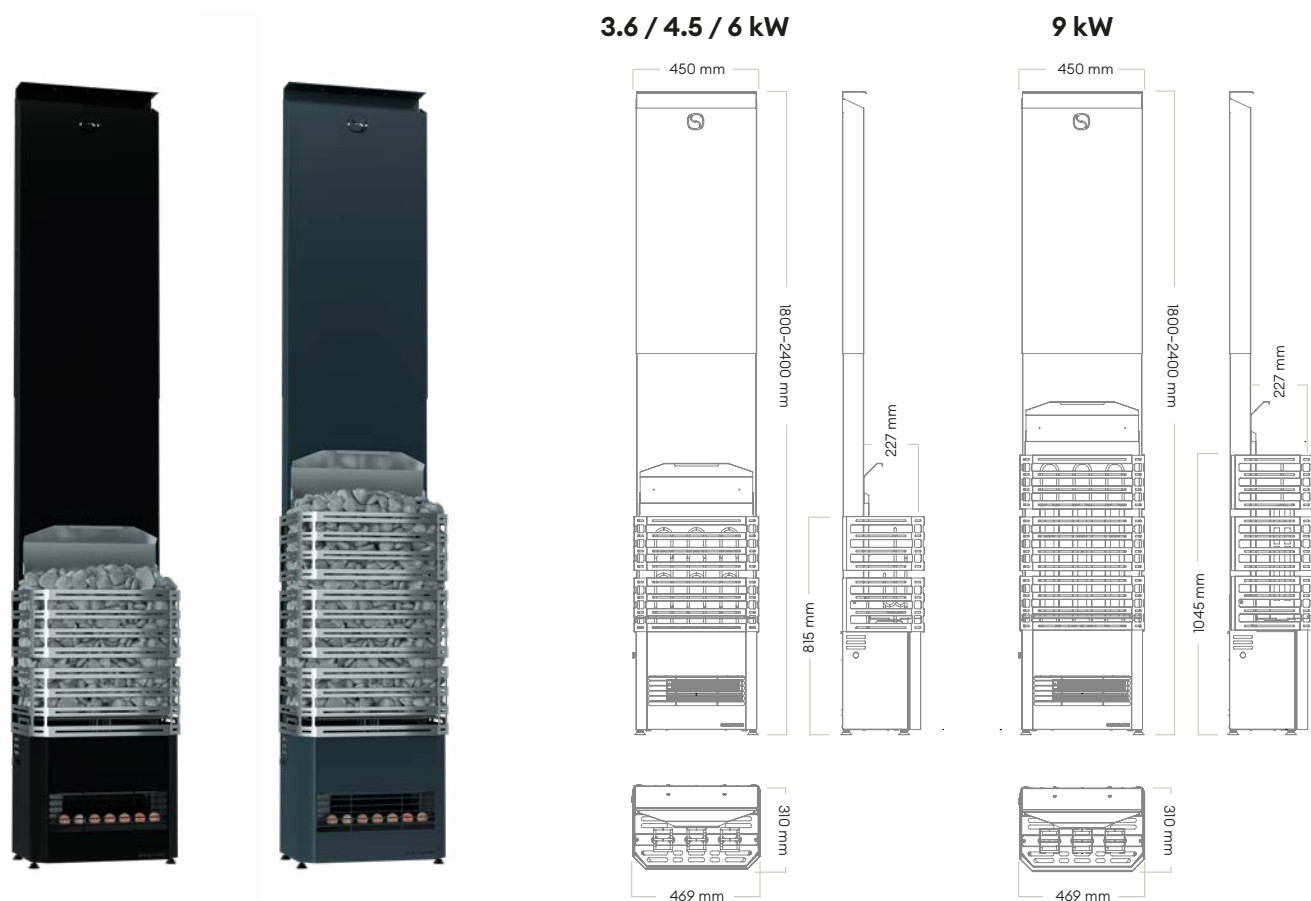

Open: 310 mm x 469 mm

Closed: 315 mm x 469 mm

Weight

40 kg

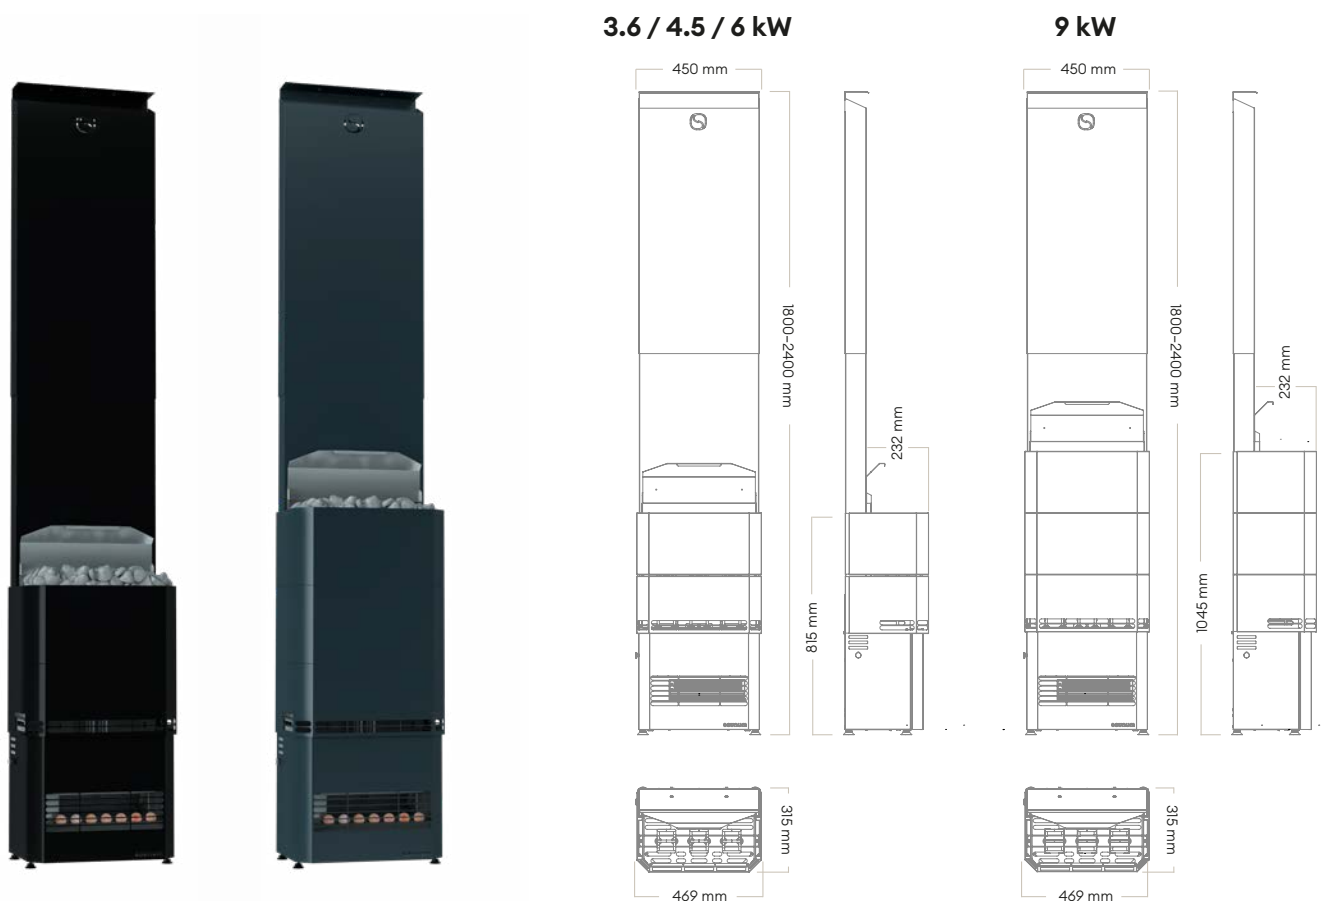

saunum experience

Open stone basket

Power of the heater	3.6 kW	4.5 kW	6 kW	9 kW
Steam room	2–5 m ³	3–5 m ³	5–7 m ³	7–10 m ³
Minimum height of the steam room	1830 mm	1830 mm	1830 mm	2100 mm
Minimum safety distance				
from heater's sides	150 mm	150 mm	150 mm	200 mm
from the front	150 mm	150 mm	200 mm	250 mm
from stones to the ceiling	1000 mm	1000 mm	1000 mm	1050 mm
Needs in addition:				
Heater stones Ø 5–10 cm	60–70 kg	60–70 kg	60–70 kg	90–105 kg
Power	5.65 A	6.52 A	8.7 A	13 A
Power cable, 3 phases (ex. 3.6 kW)	H07RN-F cable or equivalent			
Power cable for the climate device	5 x 1.5 mm ² , 1 phase – 3 speed levels			
control unit	Saunum Leil or Saunum Leil mobile app			
For an aroma sauna	Saunum sauna oil set

control unit	Saunum Leil or Saunum Leil mobile app			
For an aroma sauna	Saunum sauna oil set			

Choose the power of the heater according to the volume of the steam room

For non-insulated walls (bricks, glass blocks, glass, concrete, floor tiles, etc.), a more powerful heater is required. Add 1.2 m³ to the volume of the steam room for each square meter of non-insulated wall. For example, a 10 m³ steam room with a glass door requires the power of an 12 m³ steam room.

How does Saunum's unique heater work?

Saunum's patented air mixing system captures scorching steam that has risen under the ceiling of the steam room, mixes it with the cooler air coming from the floor, and directs the soft blended steam evenly back into the steam room. This ensures a more even temperature during steaming and a more airy steam that allows you to breathe more easily. Water can be thrown on stones more often, and therefore the sauna air is more humid and the sweating is more intense. No fatigue or headache after sauna!

The patented method uses Himalayan salt balls to enrich the air with healthy salt ions that circulate through the steam onto your skin and into your respiratory tract.

An even more relaxing sauna experience is created with the aroma system that mixes ethereal sauna oil aromas with steam when used together with the climate device. It is a healthy alternative to burning aroma oil on heater stones.

Sensational experience

Relaxing sauna and home spa

Try different settings and steam intensities
and enjoy a unique sauna experience.

Classical Nordic steam sauna

Temperature 60–100 °C

Climate device speed level 1, valve open 25 %

Wet steamy sauna

Temperature 45–60 °C

Climate device speed level 2 or 3, valve open 100 %

The lower the temperature and the higher the
speed of the climate device, the more steam is
generated

Mild relaxing sauna

Temperature 40–55 °C

Climate device speed level 1

If you prefer a humid steamy sauna, keep
the valve of the climate device at least 25 %
open

Sauna enriched with salt ions

Temperature 40–100 °C

Climate device speed level 1, valve open 25 %

Put the salt balls (included) onto the tray
inside the climate device.

The climate device circulates healthy salt ions
into the air together respiratory tract
with the steam and they get on your skin and into

Relaxing aroma sauna

Temperature 40–90 °C

Climate device speed level 1, valve open 25 %

Replace one of the salt balls with an aroma
bowl with a few drops of aroma oil and enjoy an
aromatherapy experience.
experience.
