

saunum

Heater/climate device for a larger
steam room

saunum luxury

The top-class sauna heater, Sauna Luxury, is a unique heater/climate device with an elegant appearance that is easy to install and maintain. The universal design allows the placement of the heater both along the wall and in the corner of the steam room. Multiple heaters ensure faster heating and extend the service life of the heaters. The large stone volume and patented air mixing system ensure excellent steam that is soft, long and evenly distributed over the entire steam room. It is a pure pleasure - a relaxing sauna and spa experience for the whole body.

Heater/climate device for
a larger steam room

saunum luxury

Sauna Luxury, available in brushed stainless steel or a beautiful anthracite grey, enhances both home and public saunas. The Leil control device makes it very easy to control the heater - you can heat your sauna with just a few touches and control the climate device directly from the touch screen.

Enjoy the unique steam and relaxing spa experience of Saunum Luxury. You can choose a hot and soft steam, a salt-ion enriched sauna, a wet sauna, a mild relaxing sauna, or an aromatherapy sauna.

Suits to the
whole family

Nutikas control unit

Saunum Leil is a new-generation sauna control device that is convenient and easy to use. Leil optimises the time required for heating according to the sauna's specifics, thereby saving energy costs. Selecting one of three pre-set steam regimes lets you heat your sauna with just a few touches of a screen. **Saunum Leil Plus** control can also be installed in a steam room.

With the help of **Saunum Leil Mobile** and **Saunum Leil Plus Mobile**, you can control your sauna from wherever you are. Sauna notifications are displayed on the user's mobile phone screen.

Technical data

saunum luxury

Included:	heater, climate device, Himalaya salt balls 10 pcs
Installation:	can be installed along to the wall or in a corner
Colour selection:	brushed stainless steel, anthracite grey

Technical data:

Power of the heater	13.2 kW	16.6 kW	19.8 kW
Steam room	14–18 m ³	18–22 m ³	22–28 m ³
Minimum height of the room	2150 mm		
Height	2050–2350 mm		
Depth x Width	600 x 850 mm		
Weight	92 kg		

Choose the power of the heater according to the volume of the steam room

A more powerful heater is required for non-insulated walls (bricks, glass blocks, glass, concrete, floor tiles, etc.). Add 1.2 m³ to the volume of the steam room for each square meter of non-insulated wall.

For example, a 10 m³ steam room with a glass door requires the power of a 12 m³ steam room.

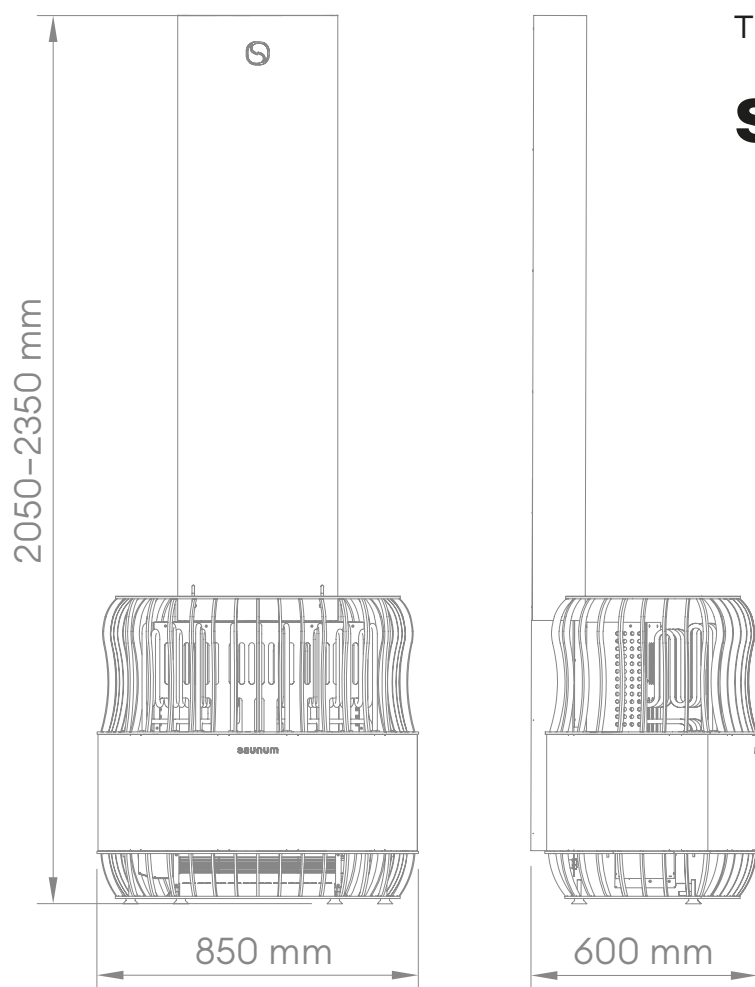

Needs in addition:

Heater stones Ø 5–10 cm	120 kg		
Power	19.13 A	24.05 A	28.69 A
Power cable, 3 phases	H07RN-F or equivalent, or 2x H07RN-F or equivalent		
Power cable for climate device, 1 phase	5 x 1.5mm ² 1 phase (for speed level 3)		
control unit	Sauna Leil or Sauna Leil mobile app + contactor block		
For an aroma sauna	Saunum sauna oil set		

* The technical data provided are preliminary and may change.

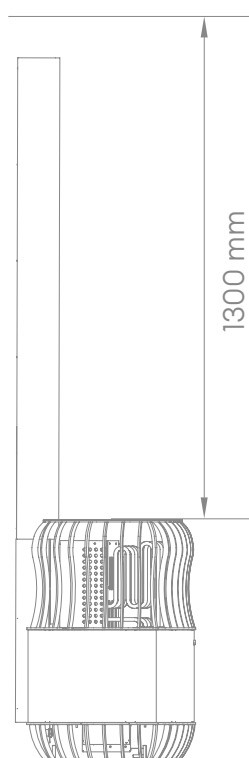

Technical drawings

Safety distances

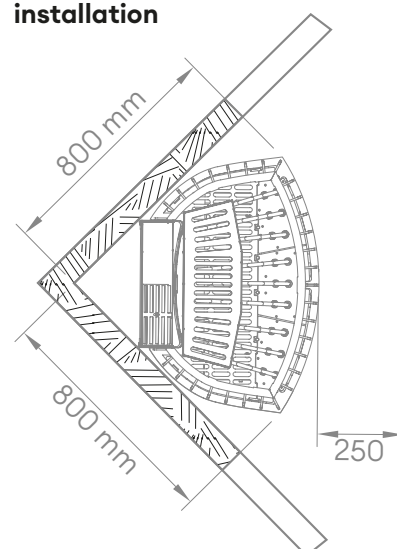

From the stones to the ceiling

Wall-side installation

Corner installation

A non-combustible wall is needed on the sides of the heater.

NB! The wall covering and the construction inside the wall must be non-combustible.

Innovation

patented air mixing system

Saunum's patented air mixing system captures scorching steam that has risen under the ceiling of the steam room, mixes it with the cooler air coming from the floor, and directs the soft blended steam evenly back into the steam room. In this way, a more even temperature is ensured during steaming, and the more airy steam allows you to breathe more easily. Water can be thrown on stones more often, and therefore the sauna air is more humid and the sweating is more intense.

Health

sauna air enriched with salt ions

The patented method uses Himalayan salt balls to enrich the air with healthy salt ions that circulate through the steam onto your skin and into your respiratory tract. Salt therapy is a popular treatment for asthma, bronchitis, pneumonia, or sinus infections and relieves breathing difficulties in children and adults.

Aromatherapy

pleasures of aromatherapy

An even more relaxing sauna experience is created using the Saunam Sauna Oil Set aroma system combined with the climate device, which mixes ethereal sauna oil aromas with steam. It is a healthy alternative to burning aroma oil on heater stones.

Sensational experience

Relaxing sauna and home spa

The Saunum Professional heater with a unique air mixing system turns your sauna into a relaxing 5-in-1 home spa and allows you to enjoy an exceptional steam sauna experience.

Classical Nordic steam sauna

Temperature 60–100 °C

Climate device speed level 1

An enjoyably wet sauna

Temperature 60–70 °C

Climate device speed level 2 or 3

The higher the speed, the milder the steam.

Throw water abundantly and sweat with pleasure!

Mild relaxing sauna

Temperature 40–55 °C

Climate device speed level 1

Sauna enriched with salt ions

Temperature 40–100 °C

Climate device speed level 1 to 3

Put the Himalaya salt balls (included) into the tray inside the climate device.

The climate device circulates healthy salt ions into the air, which mixes with the steam to the benefit of your skin and respiratory tract.

Aroma sauna

Temperature 40–90 °C

Climate device speed level 1

Replace

one of the salt balls with an aroma bowl containing a few drops of aroma oil, and enjoy an aromatherapy experience.
