

Description

The Ecoflame CON 4 remote control (3-9 kW) is designed for electric stones with a power of 3 to 9 kW. The remote control has a set of standard, necessary options for modern electric stoves. Thanks to the EcoFlame CON 4 (3-9 kW) remote control, you will be able to set and maintain a favorable temperature in the steam room, set the time of operation of the furnace, turn on and off the light in the bath, and also program the time before the stone stove starts working. The remotes are suitable for EcoFlame electric bath furnaces, they can be easily mounted on any wall of the dressing room and do not take up much space.

The Ecoflame CON 4 remote control (3-9 kW) will make your steaming much easier, more pleasant and more comfortable .
